Seminar 3

Choose **one** of the following research scenarios:

ONE

"You work for an educational charity that aims to implement policy changes across the higher education sector. Your line manager has commissioned a project that attempts to understand why some universities perform better in their NSS (National Student Survey) scores than others using a survey. Your line manager has put you in charge of **deciding the mode of delivery** for the study…"

TWO

"You work for the Wikimedia Foundation. The Foundation has detected that the number of contributors in the Wikipedia project has dropped down during the past years. They have decided to carry out a study, using a survey, to research the possible barriers which the contributors are facing. They have contacted you **to chose the mode of delivery** for this study…"

THREE

"You work for a youth outreach team which aims to keep young people in education in economically deprived areas. The head of the outreach team has asked you to devise a survey that attempts to understand why some young people (under the age of 16 and who have been excluded from mainstream school) commit offences in their youth. In order to understand this issue, the head of the outreach team has asked you t**o chose the mode of delivery** for a survey…"
